Background

6-7/12/2023 SHANGHAI, CHINA

The 13th China Sourcing Summit On Petroleum & Chemical Equipment (CSSOPE) will be held on December 6th-7th, 2023. Con-current with the exhibition, the two-day CSSOPE summit will focus on discussing on the projects and equipment procurement needs of traditional oil and gas industry on day 1 and new energy industry on day 2, focusing on the latest policies, industry trends, project information, market dynamics, and procurement needs.

About CSSOPE

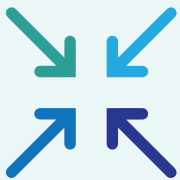

The Conference and Exhibition - China Sourcing Summit On Petroleum & Chemical Equipment (CSSOPE) is the first event that has attracted more than 10000 procurement managers from the industry giants to participate in China and from overseas in the last 12 years. Join the best in class industry event for procurement in petroleum and chemical, and new energy sector to meet excellent sourcing executives, procurement managers, buyers, traders, EPC contractors from the top-500 international companies. Today's EPC projects are becoming more complex and more implemented on a much larger scale with large contract values. Companies need to have a clear strategy on how to manage and work with suppliers. CSSOPE 2023 will provide extensive knowledge on procurement and to delivery with practical case studies and PM training to procurement managers. The conference offers a strategic opportunity for operators, contractors to have round table discussion to develop an effective contractual form for a successful scope of work and aligning expectation between all the parties. CSSOPE adheres to the boutique exhibition mode and invites high-quality suppliers to improve your purchase efficiency and reduce the sourcing cost.

Collaboration on Sustainable Development through Energy Conservation and Carbon Reduction & Engaging on the New Energy Industry Chain

Nearly 1000 delegates will get together in physical and virtual ways from world-renowned oil and gas companies, engineering contractors, service providers, traders, shipping companies and logistics enterprises, suppliers and manufacturers, insurance and financial institutions from 18 countries and regions. The event will discuss the sustainable development of procurement and supply chain in several industries such as the oil and gas, refining, petrochemical, marine engineering, new energy, new materials etc.

CSSOPE Offers Platform to

1. Decision makers share experience on trends, challenges, pain points and hot spots.
2. Improve procurement & marketing efficiency via the global procurement system.
3. Reduce the sourcing cost and publish the purchase list in advance.
4. Lock in procurement resources and invite high-quality manufacturers.

Best Buyers from

6-7/12/2023 SHANGHAI, CHINA

CSSOPE 2023 will gather many procurement executives from industry giants such as Aramco, SABIC, Shell, BP, equinor, Rosneft, Total Energies, PetroChina, Sinopec, CNOOC, NMDC GROUP/NPCC, Yanchang Petroleum, ConocoPhillips, Petrobras, BASF, Evonik, Lyondellbasell, Air Liquide, Arkema, Dow, LanXESS, Solvay, Huntsman, CEPSA, Wanhua Chemical, ACWA Power, Stepan, Enppi, Fluor, Petrofac, Worly, Technip, Schlumberger, Halliburton, BV, Toyo Engineering, Eni, MaireTecnimont, YPF, Hengli, Hengyi, Zhejiang Petrochemical, Wuchuan McDermott offshore Eengineering, Ineos, Vepica, BHP Billiton, Rio Tinto, Baker Hughes, KAJIMA, Samsung Engineering, Wison, Linde, Honeywell UOP, HQCEC, Chengda Engineering, Wison Engineering, Hualu Engineering, PetroChina Jilin Chemical Engineering, COOEC, SEG, SEI, Jutao, Jerry, CIMC Raffles, COSCO Shipping, Beijing Gas Group, NORINCO International, CPPMEC, Dongfang Shenghong, Rongsheng Petrochemical, Wanhua Chemical Group, Hengli Petrochemical, Rongsheng Petrochemical, Satellite Chemical, Shanghai Petrochemical, Hengli Petrochemical, Rongsheng Petrochemical, Tongkun etc.

Many excellent suppliers have found business opportunities, established networks, expanded the market, and obtained orders at CSSOPE. At a time of alternating demand in the traditional energy and new energy markets, CSSOPE has attracted much attention from manufacturers. The exhibition gathers professional buyers from around the world, who are well prepared to purchase products and search for suppliers on site. This not only provides opportunities for many international brands to enter the Chinese and Asian markets, but also provides a global procurement platform for the Chinese vendors to enter the international market.

Best Suppliers from

6-7/12/2023 SHANGHAI, CHINA

Many excellent suppliers exhibited at the CSSOPE and established contacts with buyers and broadened the market to get orders. Especially under the influence of the pandemic, CSSOPE has attracted much attention from the manufacturers and service suppliers,

such as NEWAY VALVE, HANGZHOU BOILER GROUP, SHANGHAI TANGWEAR PROTECTIVE EQUIPMENT TECHNOLOGY INC., UPTRON TECHNOLOGY MT GROUP, SAGTA ENGINEERING, WAROM TECHNOLOGY, DUOWEI UNION GROUP, RAINBOW ENVIRONMENTAL EQUIPMENT, ZHEJIANG TSINGSHAN STEEL PIPE, JIANGSU SHENGPO NEW MATERIAL TECHNOLOGY, ZHEJIANG ZHONGDA ADVANCED MATERIAL, XIAMEN NCC STEEL ENGINEERING, RAYS FLOW CONTROL, INC., KRD POWDER ENGINEERING, HEBO TESTING TECHNICAL SERVICE, JIANGSU JIANZHONG NEW MATERIAL, ZHANGJIAGANG FURUI HEAVY EQUIPMENT, NINGBO KUNYUAN FASTENER CO., LTD., FEATURE-TEC (WUXI) FILTRATION TECHNOLOGY, SHANGHAI SHENKAI PETROLEUM EQUIPMENT, FBV INC., WH STEEL, SHANGHAI NAGAMORI MACHINERY. CZ ELECTRIC. ZHEJIANG GUOBANG STEEL, SUPERIOROIL & GAS TECHNOLOGY, KALOON ANALYTICAL INSTRUMENTS, ZHEJIANG ROCK MECHANICAL INSPECTION TESTING, BAOWU SPECIAL METALLURGY, MAM EXPLOSION-PROOF TECHNOLOGY, JIULI HI-TECH METALS, HANGZHOU STEAM TURBINE AUXILIARY EQUIPMENT, HANGZHOU GUONENG STEAM TURBINE ENGINEERING, STEELBOND, FUNKE HEAT EXCHANGER SYSTEMS, BAOJI TITANIUM INDUSTRY, KCON VALVE MFG., HANGZHOU BOILER GROUP, SHANGHAI SHENKAI PETROLEUM EQUIPMENT, SINOTRANS OVERSEAS DEVELOPMENT LIMITED etc. At the same time, the conference also got the participation and support of many third-party quality inspection institutions such as API, TUV, SGS, BV, DNV, Chitako and so on.

CSSOPE 2023 Innovation and Highlights

800+ Senior purchasing management and enterprise decision-maker to attend

60+ Industry leaders and procurement experts give speeches to share insights

8+ Procurement sessions parallels the promotion sessions to improve efficiency

2+ Factories will be visited by the procurement speakers and visitors

200+ Exhibitors to participate in the exhibition to meet buyers

Brief Agenda

Pre-event Day December 6, Wednesday, Visit factory(Buyers Only)

Day 1 December 7, Thursday, Summit and Exhibition

Day 2 December 8, Friday, Summit and Exhibition

Exhibit Profiles

- **Upstream E&P:** geophysical equipment, logging equipment, oil pipe, oilfield chemicals, oil field engineering and technical services, rig, mud pump, manifold, BOP, cementing, acidification equipment, fracturing equipment, workover products, oil mining gas equipment, drills, drilling tools, test mining tools, power equipment, multi-phase flow meter, offshore drilling rigs, offshore platforms, marine steel modules, subsea wellhead equipment, wire rope rigging and hoisting, anchor, offshore steel / steel grating, ocean platform crane.

- **Downstream, Refining And Petrochemical:** pressure vessels, reaction equipment, tower, heat exchangers, flue gas composition machine, pumps, compressors, refrigeration, air-conditioning equipment, boilers and accessories, steam turbine, gas turbine, engine, filtration equipment.

- **Midstream, Pipeline Storage:** gas separation and liquefaction equipment, cryogenic equipment, valves and actuators, sealing materials, flowmeter and Blind, steel, steel, stainless steel, fiberglass and flexible composite pipe, pipe fittings, flanges and fittings, engineering machinery, instrumentation, welding cables, electrical power, communication equipment, gas detectors, safety/health, oil spill response equipment, explosion proof motors and electrical equipment, corrosion insulation material, transport equipment, gas station equipment, environmental equipment.

- **Third-party services:** industry organizations, associations, E-commerce, project Logistics, testing and certification, banking, legal, insurance, financial leasing, import and export, consulting, certification, and other agents.

- **New energy equipment and materials:** Solar energy: photovoltaic raw materials, photovoltaic cells, solar energy application products, etc; Wind energy: wind turbines, distributed wind power generation systems, offshore wind power equipment and technology, wind turbine supporting equipment, wind farms, etc; Hydrogen energy: hydrogen production equipment technology and hydrogen supply, hydrogen storage and transportation and related equipment, hydrogen liquid chemical plants, gas detection and analysis instruments, Hydrogen fuel vehicles, Hydrogen station complete equipment, on-board hydrogen supply system, etc; Energy storage: Energy storage, equipment and materials, power stations and EPC projects, superconducting electrical technology, various new cables, composite materials, etc.

Testimonials

6-7/12/2023 SHANGHAI, CHINA

"Thank you for inviting Aramco to participate and providing us with a good communication platform."

Abdulrahman M. Al Hatlan,
SPLD Director & Shanghai Branch Manager, **Aramco Asia**

"Congratulations on the success of the summit, thanks for the organization of TOPCO, We have gained a lot and look forward to participating again next year."

Charles Lee, General Manager, **SK E&C**

"Thank you very much Topco team for organizing CSSOPE 2021 to build a platform for both suppliers and buyers, and also give us the opportunity to learn a lot information from the industry experts."

Lucy Li, Head of Commodity Management, Global Procurement Center China, **Linde Engineering APAC Co., Ltd.**

"It was pleasure to participate as Speaker and Panellist. This Conference and Exhibition is an event to meet excellent suppliers for sourcing executives, procurement managers, buyers, traders, EPC contractors from international companies. Congratulations to all participants for wonderful participation. See you all next year as well."

Deepak Shinde, Head SCM China, **Larsen & Toubro Limited**

wood.

"CSSOPE was successfully organized by TOPCO, Wood made a lot of new friends and communicated with many excellent suppliers. Thank you for the hard work."

Ren Xiaofeng, Procurement Director, **Wood China**

"Thank you for the opportunity given by the organizer TOPCO. Congratulations on the success of CSSOPE."

Wei Mingli, General Manager,
Shanghai Nagamori Machinery Co., Ltd.

"Thank you for the professional organizing committee, the wonderful sharing of all the guests, and the good words and good dinner reception sponsored by Mr. Gu. We are destined to get together. We will work together for the development of the industry."

Dong Zhiwu, General Manager, Global Business Center,
Hangxiao Steel Structure Co., Ltd.

"As always very good job, congratulations. We will have next year bigger grow together."

Alejandro Gamez, Deputy General manager, **Arflu Ltd.**

Who Should Attend

6-7/12/2023 SHANGHAI, CHINA

Oil & Gas Corporation

Petrochemical / Chemical Company

Oilfield Service Company

EPC Contractor

Equipment Manufacturer & Supplier

Equipment Trader

Technology & Solution Company

Project Logistics and Transportation

Company

Training, Inspection,

Testing and Certification Organization

Embassies

Oil Equipment Manufacturing Base/Hub

Safety, Energy-saving and Environmental

Government Department

Industry Association

Research Organization

Insurance and Crisis Management Company

Bank and Financial Lease Company

Accounting Firm

Law Office

Welcome to join the procurement peers from NOCs, IOCs, EPC contractors, traders, stockers, e-commerce platforms and other purchasers from all over the world to establish trade partnership, seek the latest solutions and procurement strategies, to create the future together.

Supplier discount:

each exhibitor can get
5 free VIP passes to
invite buyers

Buyers discount:

suppliers who
recommended by buyers
can enjoy 20% discount
to register

► Payment should be made within five working days after registration to retain the participation qualification.
